2. Project Result:

The most important result of the project was giving Romanian and Bulgarian youth a sense of belonging to common values and tradition through their participation in Thematic Debates, Educational Camps, Visual Art Camp, Common History Camp, Informative meeting, Folk Tradition Festival and by elaborating Films regarding cultural traditions and common history, Brochure about tourist routes in the cross border area, Guide regarding opportunities for personal and professional development of young people and radio broadcasts.

4. Project Story

During the one year of implementation, young people from Constanta and Silistra participated in Educational Camps in Romania in Bulgaria (learning traditional folk songs and dances), Visual Art Camp (discovering sculpture, painting and photography), Common History Camp (finding common history and traditions about the cross border region). The promotion of the project and of common traditions has been realized by broadcasting the Film for promoting historical heritage in the cross border area, film elaborated during the project and by the dissemination of the Brochure "Tourist routes for young people in Constanta-Silistra cross border area". The cultural part has been approached through the dissemination of the Film for promoting cultural and artistic cooperation among youth on DVDs to schools and youth organizations. Also, during the thematic debates from the two countries, eco themes and youth development issues have been approached, as well as advantages of common history and traditions. The grand finale of the project was the Common Folk Traditions Festival in which young people from the two countries expressed themselves through dance, music, visual arts, helped by the experience gained during the activities unfolded during the project.
